

**TRAILS END WATER DISTRICT**  
**11-25-20 Working Session**  
**MINUTES**

**CALL TO ORDER:** The working session came to order at 4:29 pm

**ATTENDANCE:** Deb Watson, Joe Morris, Sarah Carlson, Commissioners

**DISCUSSION TOPICS:**

Transfer Switch – Ms. Watson reported that she was not able to pick up the transfer switch she was going to get. Apparently, it had already been sold. Her contact, Nick, and he has found another one that would work on the generator. The quote is \$800 but does not include tax or shipping. Ms. Watson is still willing to pay up front and be reimbursed, saving us a month of processing time before receiving the switch. She is going to keep working on it with hopes of getting it done soon.

Mr. Morris reported on work being done around the system. We have a leak. It amounts to a regular leak, not related to the flushing that was done, nor a customer leak. He has a couple of potential places to look and is following up. He hasn't gotten to the bottom of the valve issue yet. He found the original ones were not installed properly. He is continuing to work on this issue as well.

Mr. Morris also reported on work for a depth sounding system that we have talked about before.

Commissioners set the agenda for the 12/8/20 meeting.

**ADJOURNMENT:**

The meeting adjourned at 4:46 pm
